Thai : ★★★★★

PROFILE

I am hardworking, flexible, reliable, and honest. I am eager to gain new experiences through work to further develop myself.

EDUCATION

2022-Present : A fourth-Year student at SETEC INSTITUTE major Managements Information System (MIS)

20221 : Graduated from Phnom Thom High School

EXPERIENCE

I don't have formal work experience yet, but I have gained a lot of knowledge, skills, and experience through class assignments in every session, both individually and as part of a team. Here are some of the experiences I have acquired:

Web Development : I have experience in web development, include creating two e-commerce websites. One was built with Python for the backend, while the other, currently in progress, uses Node.js. For the frontend, I utilized technologies such as Vue.js, HTML, CSS, JavaScript, Bootstrap, and jQuery to enhance both functionality and design.

Web design : In the Web Design section, I created web templates using HTML, CSS, JavaScript, and Bootstrap. These include a bookshop template for showcasing books, a travel template for exploring tourist destinations, and an e-shop template for displaying and selling products online.
